About Us

Sheffield Mutual Friendly Society has been improving the financial wellbeing of its members since 1892. Whilst we remain passionate about our heritage and mutual status, our products and services have been developed to include a simple range of trusted savings, investment and protection plans - with a particular emphasis on tax-efficient savings and investment policies.

Being an independent mutual organisation we have no shareholders to satisfy. This means that our success can be shared with our members through attractive investment returns and good service. Whilst past performance is not an indicator of future performance, our aim is to deliver greater potential returns to members throughout the life of their policy.

The Society is:

- A member of the Association of Financial Mutuals
- Authorised and regulated by the Financial Services Authority
- A member of the Financial Services Compensation Scheme

For further information about the Society and our policies, please contact us.

Our Business

Regular Savings Plan

Why should I save with the Sheffield Mutual?

The Society has been providing savings and protection policies to its members since 1892 and as we are owned by members and not shareholders, any surplus funds are used for their benefit.

Are there any guarantees?

Providing the plan runs to its planned maturity date, the Society will, depending on the amount you wish to save and for how long, guarantee a minimum sum assured. The final value will depend upon investment performance but bonuses are declared by the Society's Committee of Management acting on actuarial advice, each year, and these are added to your guaranteed sum assured. Once added these bonuses cannot be taken away. There may also be a further terminal bonus on maturity but this is subject to investment returns during the period and is not guaranteed.

Where does the Society invest its with-profits fund?

The Society invests in a range of different assets with the aim of providing a higher return in the medium to longer term (5-10 years+) than that achievable in a Bank or Building Society account. We will look to achieve this by maintaining a spread of Investment Assets that will provide low to medium risk making it an option for individuals with a more cautious approach to investing their money.

Examples of the types of assets we invest in are:-

- The shares of UK companies though we may also have a very small exposure to some overseas companies to provide diversity. These provide income from dividends with the possibility of capital growth.
- We also adopt an ethical approach to our share purchases by not including companies who are involved in armaments, tobacco and pornography.
- Investments such as Government Gilts or Corporate Bonds which provide fixed interest.
- Property - The Society owns several properties which provide income from rentals and potential capital growth.
- Fixed interest returns from a small portfolio of Commercial Mortgages.
- Cash.

The proportion held in each of these can vary depending upon market conditions but you can obtain a guide of the spread by contacting the Society's office.

How does the bonus work?

We invest our funds as described in the previous section and receive a return on those investments which can vary from year to year. At the end of March or early April we review the returns achieved during the previous calendar year in consultation with our Actuary, and the Committee of Management declares a bonus rate for each policy type for that period. Obviously the rate varies depending upon overall investment returns and is not therefore guaranteed to be paid at the same rate in future years. However, once bonuses have been added to the policy, providing the policy runs to maturity, they will not be taken away.

Bonuses are calculated at the appropriate rate based on the sum assured not the amount of premium paid and on maturity you will receive the initial sum assured plus bonuses added during the life of the policy.

The Society also tries to 'smooth' returns over the life of the policy by retaining some of the investment return in good years to maintain bonus rates in poorer years. However, to ensure members receive their fair share of returns on their policy over its lifetime, there may be an additional terminal bonus paid on maturity. Payment of this type of bonus depends entirely on investment performance and the rate at which annual bonuses have been added. It is not guaranteed, i.e., if paid, the rate may vary from year to year.

How much can I save?

You can save from as little as £5 per month or £50 per annum.

Can I select the term of my savings plan?

Yes, you may choose the period over which you would like to save with a minimum term of 10 years and a maximum of 25 years.

Who can save in this plan?

Anyone can have a regular savings plan.

Can I have a plan for a child?

Yes, even though a child may not have his/her own income an adult may pay the subscription on his/her behalf. This is an ideal way to build up a lump sum perhaps as an 18th birthday gift or to help with school or University fees.

Can I make early withdrawals?

You cannot make a partial withdrawal but if your circumstances change, you can surrender your policy. However, the plan is designed for medium to long term investment and the surrender value may be less than the amount you have paid in. You may also be liable for additional tax on any investment gain. The amount of the gain may result in a reduction of the amount of any old age relief or child tax credit being received.

What happens if I die before the maturity date?

In the event of death before the end of the term, the Society will refund all premiums paid plus interest up to the date of death. Interest is calculated using the Bank of England base rates that have applied during the term of the policy + 1% though this could be changed in the future by the Society. Notice of any change will be given.

Is life cover included?

No, this plan does not include any life cover. However, we do offer plans which have the benefit of life cover, and we will be pleased to supply information to you.

Is there any tax liability?

The money you save is invested in a fund on which the Society pays tax. Providing the policy runs to maturity, the proceeds are normally free of further taxation. However, you may have to pay tax if you stop paying premiums and/or you cash in your policy before the end of its term. All references to taxation are based on the Society's understanding of current tax legislation and practice, which may change in the future.

Are there any charges?

Yes, the Society takes a management contribution of 50% of premiums paid in year 1 and in the second and subsequent years 6% of the annual premium amount. These are to cover the cost of expenses incurred in setting up the policy and maintaining it thereafter. The charges are deducted from the overall fund and taken into account when we calculate the level of bonuses we are able to pay.

How do I start my plan?

Simply decide how much you would like to save, for how long, and whether you would like to save monthly or annually. You should then study the 'Key Features' literature and, providing you do not need any advice, complete and return the application form, client agreement, non-advised sale letter and direct debit authority and return them to Sheffield Mutual Friendly Society, 3 Maple Park, Maple Court, Wentworth Business Park, Tankersley, Barnsley, South Yorkshire, S75 3DP along with a cheque for the initial premium.

Need any further help or information?

Our friendly and knowledgeable staff would be pleased to provide you with factual information about the Society's products and services, so you can make your own choice about how to proceed. No advice or recommendations will be given and if you are in any doubt as to the suitability of a product, you should seek advice from an Independent Financial Adviser.

Do I need to provide any additional information?

In order to comply with regulations, the Society will require confirmation of your identification and address. We will therefore ask to see documents such as a passport or driving licence and utility bills or bank statements before issuing a policy. If such documents are not available, we may be able to confirm your identity and address using an electronic verification system.
