Regular Savings Plan

A warm welcome to Sheffield Mutual. We've been helping our members make the most of their money since 1892. We'd love to do the same for you and your family.

As a mutual society with no shareholders, our members are the people we care about the most. Any surplus profit is distributed to provide you with the best possible returns combined with the highest standards of personal service. Building on the experience of our heritage while always looking to the future, we've developed a selection of straightforward trusted savings, investment and protection plans - with a particular emphasis on tax-efficient savings and investment plans.

Risks you should be aware of:

- If you surrender your plan before maturity (which is the term you select when first starting the plan), you may get back less than you have paid in.
- Tax treatment depends on individual circumstances and may be subject to change in the future.

Get into the habit of saving regularly with our Regular Savings Plan

How much can I save in a Regular Savings Plan?

The minimum you can save in the Sheffield Mutual plan is as little as £5 per month or £50 annually. However, if you haven't used your friendly society tax-free allowance of £25 per month or £270 per annum, you may want to first consider our Tax Exempt Savings Plan.

Who can save in a Regular Savings Plan?

Anyone can start a Regular Savings Plan or have several plans.

Can I have a plan for a child?

Yes, even though a child may not have their own income, an adult can pay the premiums on their behalf. This could be an ideal way to build up a lump sum perhaps as an 18th birthday gift or to help with school or university fees.

Why save with Sheffield Mutual?

As a mutual friendly society with no shareholders to satisfy, any surplus funds are used for the benefit of members. We specialise in offering with-profits policies, which offer greater potential returns by investing in a range of different assets - without exposing your capital directly to the stock market.

Where will my money be invested?

The Society invests in a range of different assets with the aim of providing a higher return in the medium to longer term (five to ten years+) than may be achievable with a bank or building society account. We will look to achieve this by maintaining a spread of investment assets that will provide a low to medium risk making it an option for individuals with a more cautious approach to investing their money.

Types of assets we invest in are:

- ✓ **Shares of companies** although mainly UK based, we have exposure to overseas companies to provide diversification. These provide income from dividends with the possibility of capital growth.
- ✓ **Fixed interest investments** such as government gilts and corporate bonds
- ✓ **Property** the Society owns a portfolio of properties which provide rental income from rentals and potential capital growth.
- ✓ **Cash**

The proportion held in each of these will vary depending on market conditions. We can provide you with a guide to the spread of investments. We seek to adopt an ethical approach to investing and it is our policy not to invest knowingly or directly in industries relating to armaments, tobacco, gambling or pornography.

How are bonuses calculated and paid?

We invest our funds as described above and receive a return on those investments, which can vary from year to year. At the end of March we review the returns achieved during the previous calendar year and declare a bonus rate for each policy type for that period. The rate varies depending upon overall investment returns and is not therefore guaranteed to be paid at the same rate, or at all, in future years. However, once bonuses have been added to your policy they will not be taken away, providing the policy runs to maturity.

Bonuses are calculated at the appropriate rate based on the 'sum assured' (your guaranteed final amount), not the amount of premium paid. On maturity you will receive the sum assured plus bonuses added during the life of the policy.

The Society also tries to 'smooth' returns over the life of the policy by retaining some of the investment return in good years to maintain bonus rates in less positive years. However, to ensure you receive your fair share of returns on your policy over its lifetime, an additional terminal (final) bonus may be paid on maturity. Payment of this type of bonus depends entirely on investment performance and the rate at which annual bonuses have been added. It is not guaranteed and, if paid, the rate may vary from year to year.

Are there any guarantees?

Providing the plan runs to its planned maturity date with all premiums paid, we will guarantee a minimum final amount (sum assured) for more than you have paid in (depending on the amount you want to save and for how long).

The final value of your plan will depend upon investment performance, but bonuses are declared each year, and these are added to your guaranteed final amount. Once added, these bonuses cannot be taken away.

Can I select the term of my savings plan?

Absolutely, choose a term between 10 and 25 years and watch your savings grow.

Can I make early withdrawals?

You cannot make any withdrawals, but if your circumstances change, you can surrender your policy. However, the plan is designed for medium to long-term investment and the surrender value may be less than the amount you have paid in.

What happens if I die before the maturity date?

In the event of death before the end of the term, the Society will refund all premiums paid plus interest up to the date of death. Interest is calculated using the Bank of England base rates that have applied during the term of the policy + 1%, though this could be changed in the future by the Society. Notice of any change will be given.

Is life cover included?

No, this plan does not include any life cover. However, we do offer plans that include life cover, which we will be pleased to provide information about.

Is there any tax liability?

The money you save is invested in a fund on which the Society pays tax and tax at the basic rate may be treated as paid on any taxable gain, which means there is likely to be no further tax to pay unless you are taxable at the higher rate*. However, a gain on which tax is treated as paid may have an effect on your tax liability if you qualify for age-related allowances or reliefs, or you are receiving tax credits.

*All references to taxation are based on the Society's understanding of current tax legislation and practice, which may change in the future.

Are there any charges?

To cover the cost of expenses incurred in setting up your policy and maintaining it, we take a management contribution of 50% of premiums paid in the first year and 7.5% of the annual premium amount in the second and subsequent years. The charges are deducted from the overall fund and taken into account when we calculate the level of bonuses we are able to pay.

What about membership?

When you open a policy with us, you will automatically become a member of the Society (adult policyholders only). As well as being able to have your say on how the Society is run each year, you will also have access to various discretionary benefits, such as optical and dental grants, as well as exclusive access to a range of discounts and offers.

Where can I get further help or information?

Our friendly knowledgeable team would be happy to provide you with factual information about the Society's products and services, so you can make your own decision about how to proceed. No advice or recommendations will be given and if you are in any doubt about the suitability of a product, you should seek advice from a suitably qualified financial adviser, which may incur a fee.

Do I need to provide any additional information?

In order to comply with regulations, the Society will require confirmation of your identification and address. We'll aim to do this using an electronic verification system, but reserve the right to ask for appropriate documentation from you, if this is not possible.

If the policy is for the child we'll need a copy of their birth certificate. This must be independently certified if saving more than £50 per month (£600 per annum).

How do I start my Regular Savings Plan?

Simply decide how much you would like to save, for how long and whether you would like to save monthly or annually. You should then read the 'all about us' section in this booklet, 'with-profits information' sheet and the Key Information Document and, providing you do not need any advice, complete and return:

Key Information Document

Regular Savings Plan

Purpose

This document provides you with key information about this investment product. It is not marketing material. The information is required by law to help you understand the nature, risks, costs, potential gains and losses of this product and to help you compare it with other products.

Product

The name of this product is the 'Regular Savings Plan'. It is provided by Sheffield Mutual Friendly Society. Our website address, where you can find detailed information about us, is www.sheffieldmutual.com and our telephone number is 01226 741 000. We are supervised by the Financial Conduct Authority in respect of the production and delivery of this Key Information Document (KID). This KID was produced on 12th December 2022.

What is this product?

Type: It is a friendly society with-profits regular savings plan. You may choose the period over which you would like to save at the outset, with a minimum term of 10 years and a maximum term of 25 years. The minimum monthly premium is £5 or £50 annually. The minimum guaranteed benefit is defined when you take out the plan and is called the sum assured.

Objectives: The objective of this plan is to provide you with a lump sum at the end of a minimum 10 year premium paying period.

Intended retail investor: The target customer for this product is those who wish to build up a lump sum by saving a regular amount usually monthly for a period of 10 to 25 years.

What are the risks and what could I get in return?

Summary Risk Indicator (SRI)

Lower risk ← → Higher risk

The Summary Risk Indicator assumes you keep the plan for 10 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less than you've paid in.

The SRI is a guide to the level of risk of this product compared to other products and aims to show you how likely it is that the product will lose money because of the movement in investment markets or because we are not able to pay you.

We have classified this plan as 3 out of 7 which is "medium low". This rates potential losses from future performance as unlikely.

Performance information

All with-profits policyholders pay premiums into a general pool of assets (the 'Fund'). Each policyholder shares in the profits or losses made on the Fund over their policy's lifetime.

The value of the Fund changes over time due to:

- Movements in the capital value of the Fund's assets which may be positive or negative.
- The accrual of investment income which increases the value of the assets.
- The expenses of running the business which are met from the Fund.
- Claims on death and withdrawal.
- The profits or losses that are made on the Society's CTF policies.

Inflation may affect the value of your payout in the future.

The Fund invests a proportion of its financial assets with Russell Investments, the Society's Outsourced Chief Investment Officer (OCIO). The OCIO invests in several diversified, uncorrelated asset classes, including fixed interest, equities and alternative assets. We aim to achieve a combination of capital growth and income, while targeting a long term return aligned to the rate required to support bonus rates. A further proportion of the Fund's assets is held in directly managed UK commercial property. The portfolio has strong geographical and sectoral spreads, delivering rental income and capital growth, providing a consistent and stable return for the Fund. The Fund also receives the profit and losses from historic sales of CTF policies which are credited or debited from the value of the Fund.

Payouts on with-profits policies are 'smoothed'. This means that when the Fund makes strong profits in some years, a portion of them will be held back to support performance in years where performance is less positive. This reduces the volatility of payouts when compared to the underlying volatility in the Fund's assets.

When bonuses are added to the plan they are an additional payment to the guaranteed benefit and depend upon investment performance. We can terminate the plan if premiums are more than three months in arrears.

What could affect my return positively?

Returns from the Fund are distributed through the annual and final bonuses credited to your policy. Any positive variance over expectations made when the policy is sold is likely to have a favourable impact on returns and therefore bonuses. For example, higher than expected investment returns or lower than expected expenses.

What could affect my return negatively?

Any deterioration in experience compared with expectations when the policy is sold is likely to have a negative impact on returns and therefore bonuses. For example, lower than expected investment returns or higher than expected expenses.

Payouts in severely adverse market conditions

The Society smooths payouts on maturity or death for plans of a similar type, size and term over different periods of time. On death the Society will refund all premiums paid plus interest up to the date of death. Interest is calculated using the Bank of England rates that have applied during the term of the policy +1%. This rate of interest may change in the future and is not guaranteed.

Payouts before the end of the selected term are likely to result in you getting back less than the amount you have paid in.

If there is any contradiction between the commentary here and that contained in the policy conditions and the Principles and Practices of Financial Management (PPFM), then the policy conditions and PPFM will always apply.

What happens if Sheffield Mutual Friendly Society is unable to pay out?

We are covered by the Financial Services Compensation Scheme (FSCS) who you can write to at PO Box 300, Mitcheldean, GL17 1DY. Telephone 0800 678 1100. Further information is available on their website – www.fscs.org.uk or by clicking on the "FSCS protected" link on our website footer.

This product is categorised as a long-term insurance policy and under the above compensation scheme eligible claims may be covered for up to 100% should Sheffield Mutual Friendly Society default. Some of the investments underlying this product are managed on behalf of Sheffield Mutual Friendly Society by professional investment managers, and they use nominees and custodians, in respect of investments purchased and held. The investment managers and their counterparts are not covered by the compensation scheme but were they to default, and this in turn caused Sheffield Mutual Friendly Society to default, then you would still be covered by the FSCS because your contract is with Sheffield Mutual Friendly Society. The FSCS does not cover losses arising purely from investment performance.

What are the costs?

Table 1: Cost over time

The Reduction in Yield (RIY) shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off, ongoing and incidental costs.

The amounts shown here are the cumulative costs of the product itself, for three different holding periods. They include potential early exit penalties. The figures assume you invest £1,000 per year. The figures are estimates and may change in the future. The figures shown include all the costs of the product itself but may not include all the costs that you pay to your advisor or distributor. The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs and show you the impact that all costs will have on your investment over time.

Investment £1,000 If cashed in after... Scenarios	1 year	5 years	10 years (at the Recommended Holding Period)
Total costs	£513.15	£1,443.56	£1,175.00
Impact on Return (RIY) each year	52.63%	4.50%	2.36%

Table 2: Composition of Costs

The table below shows:

- the impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period;
- the meaning of the different cost categories.

This table shows the impact on return each year			
One-off costs	Entry costs	1.04%	The impact of the costs you pay when entering into your investment.
	Exit costs	0.00%	The impact of the costs of exiting your investment when it matures.
Ongoing costs	Portfolio transaction costs	0.00%	The impact of the costs of us buying and selling underlying investments for the product.
	Other ongoing costs	1.32%	The impact of the costs that we take each year for managing your investments.
Incidental costs	Performance/other costs	0.00%	This product does not have any performance or other incidental fees.

How long should I hold it and can I take money out early?

You should keep the plan for a minimum of 10 years and pay all premiums when due to ensure you achieve the maximum returns. You cannot take out money from the plan except by cancelling it completely. If you cancel the policy before maturity a surrender penalty will apply and there is a likelihood you will get back less than you paid in. If the plan is cancelled in the first two years you will get back the total of premiums paid in, less 6 months premiums. After 2 years we calculate the ratio of the number of premiums paid to the total expected premiums. This ratio is applied to the sum assured and bonus to date to give a 'paid-up' value, which is then discounted by an appropriate rate (currently 2.5%) for the period in complete months from the date of leaving to the original maturity date to obtain the surrender value. A £10 fee is also charged to cover the cost of the surrender. If you die during the term of the plan you will receive the value of all premiums paid plus interest at 1% over the Bank of England base rates that have applied during the term of the plan. This rate of interest may change in the future and is not guaranteed.

How can I complain?

If you wish to make a complaint about us, or another person who sold or advised you on this product, then please contact us either in writing to: The Chief Executive, Sheffield Mutual Friendly Society, 3 Maple Park, Maple Court, Wentworth Business Park, Tankersley, Barnsley, S75 3DP, by telephone: 01226 741 000 or by email: enquiries@sheffieldmutual.com. A full explanation of our approach to complaints handling can be found on our website at www.sheffieldmutual.com/how-to-make-a-complaint.

Cancellation rights: After your proposal is accepted you will receive a notice of your right to cancel. You will then have 30 days in which to change your mind, and you will be returned any money you have paid, free of any charges.

With-profits information sheet

What is a with-profits policy?

With-profits is a type of investment plan sold in the UK in which extra amounts may be added to the main benefit (known as the sum assured).

A with-profits policy offers a profit share through the addition of annual and final bonuses.

The amount of bonus will depend on how the investments in the fund have performed while you have been paying premiums into it. Regular bonuses may be added, usually each year, and once declared are guaranteed.

A final or "terminal" bonus may be added when the policy is closed after it has run its minimum or set term. The amount of bonus will also depend on the allowance we make for the expenses of setting up and running the policy. The Society is a mutual organisation, which means that there are no shareholders. The Society is, therefore owned by its members, which includes with-profits policyholders.

With-profit funds are typically invested in a mixture of equities, property and fixed income investments (see overleaf). Under poor market conditions a "market value reduction" (MVR) may be applied to the value of the policy. An MVR is designed to protect members who are not taking their money out of the Society during adverse market conditions and ensures that all members receive their fair share of the with-profits fund.

An MVR reduces the amount of payout you receive when withdrawing your monies during exceptional circumstances.

You will only see the effect of an MVR should you wish to withdraw your monies at the time there is an MVR in place. An MVR can be added, removed, increased or decreased at any time.

The following policy types are classed as with-profits:-

-  **Tax Exempt Savings Plan (TESP)**
- with or without life insurance
-  **Regular Savings Plan**
-  **Investment Bond**
-  **Income Bond**
-  **Investment ISA (Individual Savings Account)**
-  **Investment Junior ISA
(Individual Savings Account)**

Understanding our with-profits fund

Sheffield Mutual's with-profits fund is managed to provide a medium to low risk investment, appealing to individuals with a more cautious approach to investing. When you invest with us, we pool your money together with other members' in the with-profits fund.

The with-profits fund invests in commercial property, shares, fixed interest, cash, bonds and government gilts. With-profits aims to offer a better return than a typical bank or building society account, but is not as risky as investing all your money directly on the stock market as we 'smooth' returns.

Explaining smoothing

A particular feature of with-profits is 'smoothing'. This is the process where we hold back some surplus profit in good years so we can top up policy bonuses in years where the performance is not as strong.

Smoothing aims to even out the short term ups and downs that is often associated when investing directly in the stock market and has enabled the Society to maintain stable bonus rates even in volatile markets.

The payment of policy bonuses is not guaranteed and depends on the performance of the with-profits fund.

Glossary

Annual bonus

This is the bonus we may add to your policy each year. It is sometimes called a regular bonus.

Assets

These are the investments held within the Society's long-term business fund.

Equities

Equities are investments made in shares of a company that is (typically) traded on the stock market.

Final bonus

This is the bonus that we may add at the end of the investment. It is sometimes called a terminal bonus.

Market value reduction

This describes an adjustment to the value of your policy in adverse investment conditions, in order to ensure you receive your fair share of the fund on surrender or encashment.

Sum assured

This is the amount shown on your illustration and is the guaranteed minimum you will receive on maturity or death (depending on the type of policy), providing you continue to pay all the premiums due.

Surrender

To cash in your policy before the end of its term.

Asset allocation

As at 31/12/2023

Our strategy is to achieve a balanced return of income and capital growth through a combination of good quality assets. We hold a higher proportion of commercial property as we can generate healthy yields from long-term leases with reputable tenants. We maintain a reasonable exposure to shares in order to preserve the value of investments over time but hold some of the funds in other assets to improve diversification and spread risk.

Client agreement (the “agreement”)

1. We treat all customers who invest with us direct as retail clients. This gives you the greatest level of protection under the financial services regulations and ensures you get full information about the product(s) you buy. You should read this agreement together with the product Key Information Document, product brochure and optional personal illustration, as they form the basis of your product relationship with us.
2. As Sheffield Mutual Friendly Society Limited (Sheffield Mutual) does not provide advice it will be classed as a non-advised sale. All decisions in relation to the investment will be and have been made by you alone and the Society has provided you only factual information. We are providing you with all the information and assistance you need to arrive at your own informed decision to take out the product(s) based on your own understanding.
3. If you then require further clarification after reading the Key Information Document you agree to read the additional information available from us, or contact us to discuss anything you do not understand. The onus is on you to understand what you are buying based on all the information we provide to you.
4. If you are not confident that you understand the product(s), its risks and whether it is right for you, please speak to a specialist adviser. If you wish to talk to an independent financial adviser in your local area you can find one online at www.unbiased.co.uk or www.vouchedfor.co.uk.
5. When we pay a fee, commission or non-monetary benefit to someone who introduces you to us, without that person giving you financial advice, we will notify you of the payment made.
6. Details about making a complaint and the Financial Services Compensation Scheme (FSCS) can be found in the Key Information Document, which has been provided to you in your policy application pack.
7. We may need to undertake checks to comply with current anti-money laundering requirements. This will normally be carried out electronically through a credit reference agency, we may keep a record of the search on your credit file, but will not affect your credit rating.
8. In processing a policy application for you, we will have collected personal data about you. We will hold and manage this data in accordance with the requirements and standards set by the Data Protection Act 2018 and any other Data Protection Regulation which may apply in the future. Your data will be held securely and will only be processed for the reasons allowed by data protection regulations.

We will at all times publish our data protection privacy policy on our website or supply a written version upon request.

9. If you have given us consent to contact you regarding other products and services, you may withdraw this consent at any time either by notifying us in writing, by email, by phone, or by submitting your contact preferences on our website.
10. You understand that we have a legal obligation to ensure that the information within our records about you is kept up to date, so please let us know if any of your details change, such as your address. When you provide information to us in connection with the application for a policy it must be accurate and truthful in all respects. There is a risk that providing inaccurate or false information could cause the policy to be invalid and you may suffer loss as a result.
11. In the event of a claim, or at maturity of a policy, you must supply us with all information we may request at that time to enable us to assist us in making payment to you. All information provided must be accurate and truthful.

Non-advised sale letter

I confirm that I have read and understood this agreement and acknowledge that all decisions in relation to this investment will be and have been made by me, and that the Society has only provided me with factual information in relation to the product. I acknowledge that I have not received advice and/or a personal recommendation from Sheffield Mutual or its introducers.

I understand that as this is a non-advised sale, Sheffield Mutual takes no responsibility for the suitability of the product and that I will lose some of the regulatory protection which I may otherwise have. Specifically, I understand that it is unlikely that I would be able to make a complaint against the Society should the product(s) prove to be unsuitable for me.

Before we can provide the product to you we will establish that your decision to open this policy seems a satisfactory way forward for you. If we believe that not to be the case, we may refuse to provide the product. We will establish this by way of a short two part questionnaire which you agree to complete on application. This is not a suitability test and by agreeing to open the policy based on your answers, **Sheffield Mutual is not confirming that the policy is suitable for you.** (Words in the singular shall include the plural for joint policyholders).

To be signed by the policyholder or by the proposer if the policyholder is under 16. Joint applicants must both sign.
