Why Sheffield Mutual?

A warm welcome to Sheffield Mutual. We've been helping our members make the most of their money since 1892. We'd love to do the same for you.

As a mutual society with no shareholders, our members are the people we care about the most. Building on the experience of our heritage while always looking to the future, we've developed a selection of trusted savings and investment plans.

Risks to be aware of:

- Our Sustainable ISA is a medium to high risk investment fund, which means the value of your investments may go up or down and you could get back less than you invested
- Tax treatment depends on individual circumstances and may be subject to change in the future

Sustainable investing which aims to make a positive change

What is an Individual Savings Account (ISA)?

ISAs are investments with tax advantages, which means that the money you put in will grow tax-free. What's more, under current legislation, (which may change in the future) your returns will be completely free of income or capital gains tax and do not need to be declared on your tax return. ISAs are available to people who are residents in the UK for tax purposes.

Four types of ISA are available - stocks & shares ISAs, cash ISAs, innovative finance ISAs and lifetime ISAs. Sheffield Mutual also offers a separate medium to low risk with-profits Investment stocks & shares ISA in addition to the Sustainable ISA.

Who can save in our Sustainable ISA?

Anyone over the age of 18, who is also a resident in the UK, or a Crown servant serving overseas, or their spouse or civil partner.

Can I have different ISAs?

Yes, you can subscribe, subject to the limits, to multiple stocks & shares ISAs, cash ISAs, innovative finance ISAs and lifetime ISAs each tax year, either with the same or a different provider. Sheffield Mutual offers two funds in which to invest an ISA; a unit-linked and a with-profits fund, both of these are classed as stocks & shares ISAs.

For the current tax year, each adult has an annual ISA investment allowance of £20,000, which you can split as you choose between a stocks & shares ISA, a cash ISA, an innovative finance ISA and, if you are between the ages of 18 and 40, a lifetime ISA. This brochure covers our unit-linked Sustainable ISA.

What is a unit-linked fund?

A unit-linked fund pools all investors' money together into one place. It uses this money to invest into different assets such as bonds and stocks & shares that you may not have been able to invest in as an individual.

When your policy is opened or if you add monies to it, you will be allocated 'units', the value of these units then fluctuates depending on the performance of the overall fund.

The value of your investment can go down as well as up and you may get back less money than you originally invested. Please see the 'How do my savings grow?' section for further information.

Are there any limits to the amount I can save in this ISA?

The current maximum allowance is £20,000 or £1,666 per month for the tax year which runs from 6 April to 5 April. The minimum amount you can invest in the Sustainable ISA is £10 per month or a single initial lump sum of £100. However, if you have contributed to another stocks & shares ISA, cash ISA, innovative finance ISA or lifetime ISA with us or another provider in the current tax year, this should be deducted from the overall limit.

The Sustainable ISA operates on the next quoted unit price for all transactions, which means that it may take up to 10 working days for any investments in or out of the fund to be bought or sold. The unit price you see at the point of application, withdrawal or surrender may differ from the purchase or sale unit price.

Can I add to my ISA?

Yes, providing you don't exceed the maximum annual allowance you can add to your ISA at any time during the tax year. If you are not paying every month by Direct Debit, the minimum additional investment is £25, this can take up to 10 working days to be processed. Call us on 01226 741 000 to make your payment by debit card over the phone, or you can make a payment directly into our bank account (please see the 'Help & Support' page on our website for account details). You can also send us a cheque payable to Sheffield Mutual.

How is my money invested?

The sustainability disclosure requirements are a set of measures put in place by the Financial Conduct Authority (FCA). The requirements aim to improve trust and transparency when investing in assets which claim to be sustainable and to remove greenwashing within the investment market.

Earning a sustainability label means that an investment fund meets specific and strict criteria set by the FCA to ensure it is genuinely sustainable, and any claims we make are not misleading.

At Sheffield Mutual we are proud that the underlying fund has received recognition of its investment strategy by being awarded with a Sustainability Mixed Goals™ label from the FCA.

The Mixed Goals label means that the fund aims to invest mainly in a mix of assets that focuses on sustainability and aims to improve their sustainability over time. The label recognises our commitment to investing in assets that support and actively contribute to the ongoing improvement of a better society and healthier environment.

Where will my money be invested?

Our Sustainable ISA is a medium to high risk product. Please ensure you are comfortable with this level of risk before you invest in this policy.

The investment fund invests in companies and other funds which aim to have a positive outcome. Your money will be invested in a fund of funds (multiple individual funds within one overall fund), this means that Sheffield Mutual can adopt various approaches to investment and sustainability outcomes. Having a diversified strategy is more likely to achieve consistent returns.

The Sustainable Fund is net zero aligned and signed up to follow the Principles for Responsible Investment (PRI).

Our Sustainable Fund lets you invest in a highly diversified investment, with strong Environmental, Social and Governance (ESG) characteristics, spreading the risk across different asset classes, such as equities, bonds and cash. If one investment performs poorly, then you still have the others to fall back on. Active management within the fund generates additional returns through individual manager selection and adjusting the asset mix to suit market conditions. As different asset classes perform well at different points in time, investing in a range of asset classes can help limit the degree to which the value of your investment fluctuates. However, please be aware that even a well diversified fund can fall in value, and you may get back less than you invest.

Can I stop paying into the ISA?

Yes, you can stop, start, or vary your payments at any time during a tax year.

Can I switch funds?

You can transfer your ISA into our with-profits Investment ISA, or to an ISA of the same or a different type with another provider.

Can I select the term of my ISA?

There is no specific term, but to take full advantage, investing in this type of policy should be viewed on a medium to long-term basis (a minimum of five years).

How do my savings grow?

When the policy is opened or additional money is added to it, you will be allocated units based upon the next available unit price. For example, if you invested £250 and the unit price was £1 you would be allocated 250 units. The unit price will then change each week and the value of your investments will go up or down, depending on the performance of the overall fund.

What are the Sustainable Development Goals (SDGs)?

All United Nations Member States adopted the 17 Sustainable Development Goals (SDGs) of the 2030 Agenda for Sustainable Development.

Through these goals countries are mobilising efforts to achieve a more sustainable future for all through targets such as to end all forms of poverty, fight inequalities and tackle climate change.

For more information, please visit the United Nations website: sdgs.un.org.

How do I obtain the current value of my account?

Checking the current value of your account is easy, simply give us a call on **01226 741 000** and a member of the team will be able to give you an up to date valuation.

Work out the current value of your account

You can work out the value of your account by taking the number of units it currently holds and multiplying this number by the current unit price. For example, if you hold 3,000 units and the current unit price is 176.50:

- **3,000 units x 176.50 pence = 529,500 pence**
- **529,500 pence divided by 100 = £5,295**

If you're not sure how many units your plan currently holds, you can contact us using the details on the back of this brochure to find out. The current unit price will be available on our website, so if you know how many units you hold, you'll be able to calculate the value of your policy 24/7.

Unit prices are calculated weekly, but this may vary.

How do the units work?

When you pay premiums, or make a withdrawal from your policy, we will normally work out the number of units we add or withdraw by using the next available price after receiving your instruction (this could take up to 10 working days). We do this as it helps to protect all policyholders' units in the fund, because it means that no one can take advantage of changes in the financial markets.

Some transactions will be carried out based on prices already calculated and published. An example of this is the payment we make if you die which is normally based on the price at the date of death.

Can I cancel the ISA if I change my mind?

Yes, you can cancel at any time, and if you do so within 30 days of your ISA's start date, you will receive a refund of your payments subject to a deduction/increase of the amount (if any) by which the value of your investment has fallen/risen at the time when your Cancellation Form is received and processed by the team. This can take up to 10 working days. If you cancel outside the 30-day cancellation period, your cancelled subscription counts as a subscription to an ISA in the same tax year.

Can I transfer my ISA with another provider to Sheffield Mutual?

Yes, subscriptions can be transferred freely between cash, stocks and shares and innovative finance ISAs. You can transfer some or all of the money saved in current or previous tax years with another provider to an ISA with Sheffield Mutual, up to £150,000 per calendar year, without affecting your annual ISA investment allowance.

To transfer your Sustainable ISA, Sheffield Mutual would need to sell your units and transfer the amount to the new ISA provider, this may take up to 10 working days (the full ISA transfer can take up to 30 days). Because this is a unit-linked ISA, the unit price may go up or down between Sheffield Mutual receiving your transfer request and the sale of your units being completed, meaning your final investment may go up or down.

You will then be able to save up to the full remaining balance of the allowance for that tax year, or you may within the overall limit subscribe to another ISA later in the current tax year.

If you already have a Sustainable ISA transfer policy with Sheffield Mutual, you can choose whether to 'top-up' your existing policy or open a new one. See 'Can I add to my ISA?' section for further information.

Can I withdraw from my Sustainable ISA?

Yes, you can withdraw a minimum of £500 at any time, provided that you have a minimum policy value of £1,000. If you wish to make a withdrawal which would leave your ISA with less than £500 invested you would need to close the plan. Please note that you would not be able to replace funds withdrawn without the replacement counting towards your annual subscription limit. If you withdraw from or close your policy at a time where markets are depressed, you may receive back less than you paid in.

Please ensure that a minimum of £500 of your money invested is left remaining in order to keep the policy running. If the unit price decreases and the value of your policy drops below £500 then your policy will remain open.

When you contribute to or withdraw from your ISA, the value will be calculated on the next declared unit price. This is a practice that aims to protect the fund and invested members.

Are there any charges?

Yes, Sheffield Mutual will deduct 1.10% of the value of the ISA policy fund each year to cover administration costs and expenses. The unit price you see already has the charges deducted.

What happens if I die?

On death, the Society will pay the policy value at your date of death plus 1% to either your personal representative(s) or to your estate. The value of your ISA will be credited tax-free up to the date of death.

What about membership?

When you open a policy with us, you will automatically become a member of Sheffield Mutual. As well as being able to have your say on how the Society is run each year, you will also have access to various discretionary benefits, such as optical and dental grants. Unit-linked members will not participate in the distribution of surplus profits achieved by the with-profits fund.

Where can I get further help or information?

Our friendly and knowledgeable team will be happy to provide you with factual information about the Society's products and services, so you can make your own choice about how to proceed. No advice or recommendations will be given and if you are in any doubt about the suitability of a product, you should seek advice from a suitably qualified financial adviser, which may incur a fee.

Do I need to provide any additional information?

To comply with regulations, Sheffield Mutual will require confirmation of your identification and address. We'll aim to do this using an electronic verification system but reserve the right to ask for appropriate documentation from you, if this is not possible.

Sustainable ISA

Terms and Conditions

The product brochure and Key Information Document set out how your Sustainable ISA will operate using plain English and a simple 'question and answer' format. Our aim is not to use jargon or small print, but ISA regulations require the Society to set out various standard terms and conditions (the "terms") under which your ISA will operate.

These terms come into force when the policy document is issued and the first premium paid. We may amend or vary these terms, if we have a valid reason to change them, by writing to you.

General Conditions

- ✓ An ISA is a scheme of investment managed in accordance with the ISA regulations by the ISA Manager (Sheffield Mutual Friendly Society, the "Society") under terms agreed between the ISA Manager and you (the "Investor").
- ✓ The ISA investments will be, and must remain, in the beneficial ownership of the Investor and must not be used as security for a loan.
- ✓ The title of the ISA investments will be registered in the name of the ISA Manager.
- ✓ The Society will satisfy itself that any person to whom we delegate any of our functions or responsibilities under the terms agreed with the Investor is competent to carry out those functions and responsibilities.
- ✓ On the instructions of the Investor and within the time stipulated by them, all or part of the investments held in the ISA and proceeds arising from those investments shall be transferred or paid to the Investor. The Society will do this within a reasonable time period, not exceeding 30 days.
- ✓ On the instructions of the Investor and within the time stipulated by them, the ISA, or part of the ISA, shall be transferred to another ISA Manager in accordance with the ISA regulations relating to transfers. The Society will do this within a reasonable time period, not exceeding 30 days.
- ✓ The Society will notify you if, by reason of any failure to satisfy the provisions of the ISA regulations, your ISA has, or will, become void.

Policy Conditions

Subject also to the Policy Schedule document:

- ✓ The policy may be owned or held only as a qualifying investment for an ISA.
- ✓ The policy shall terminate automatically if it ceases to be owned or held in the ISA.
- ✓ The life assured is that of the Investor.
- ✓ The policy shall terminate automatically if it does not satisfy the relevant qualifying conditions in ISA legislation.
- ✓ The policy, or the rights conferred by the policy or any share or interest in the policy or rights respectively, other than the cash proceeds from termination or part surrender of the rights conferred, cannot be transferred to the Investor, and;
- ✓ The policy, the rights conferred by the policy and any share or interest in the policy or rights respectively, are not capable of assignment or assignation (other than a transfer to another ISA provider within the normal rules for ISA transfers), and the rights may vest in the personal representatives of a deceased investor.
- ✓ The policy is also subject to the rules of the Society, which can be provided on request along with a copy of the Society's Annual Report & Accounts.
- ✓ Policyholders are entitled to attend and vote at the Society's AGM and will receive notification.

These terms, together with the product brochure, Key Information Document and application form, form the basis of the contract between you and the Society upon which we intend to rely. As a member owned organisation we will always aim to communicate clearly and in the best interests of our members, but if you do not understand any points, or you have any questions, please ask for further information.

Jargon Buster

Cash ISA - a tax-free deposit account which earns interest. Although less risky and more certain than a stocks & shares ISA, the returns may be relatively modest over the longer-term.

ESG - stands for Environmental, Social, and Governance. Investors are increasingly applying these non-financial factors as part of their analysis process to identify material risks and growth opportunities.

Innovative finance ISA - an ISA qualifying investment relating to peer to peer loans. These are not currently covered by the Financial Services Compensation Scheme.

Lifetime ISA - an ISA for people between the ages of 18 and 40, designed to save for a first home and retirement.

Portfolio - a portfolio is a collection of financial investments like stocks, bonds, commodities, cash and cash equivalents.

Stocks & shares ISA - a tax-free wrapper for investments other than cash deposits.

Sustainable Development Goals (SDGs) - a group of Goals that universally apply to all, countries are mobilising efforts to end all forms of poverty, fight inequalities and tackle climate change.

Sustainable investing - sustainable investing balances traditional investing with environmental, social, and governance-related (ESG) insights to improve long-term outcomes. In many ways, sustainable investing can be seen as part of the evolution of investing.

Unit-linked funds - a unit-linked fund pools your money and the money of other investors. It uses this money to invest in a wide range of assets that you might not have been able to invest in on your own. Each fund is divided into units of equal value and your money is used to buy these units.

With-profits - the name given to a type of fund which normally contains a mix of assets and which shares the profits with the policyholders. Returns are 'smoothed' whereby some profit is held back in good years to maintain returns in less positive years.

What are the risks and what could I get in return?

Summary Risk Indicator (SRI)

Lower risk

Higher risk

The Summary Risk Indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is "medium to high". This means the expected return and the potential risk of loss may be above average.

Performance information

Policyholder premiums are used to purchase units in the diversified investment Fund. The unit price may go up or down as gains and losses (see Fund changes below) are made in the investment Fund. The value of the Policyholder's investment is dependent on the number of units held and the current unit price at any particular time.

The value of the Fund changes over time due to:

- Movements in the capital value of the Fund's assets which may be positive or negative.
- The accrual of investment income which increases the value of the assets.
- The expenses of running the business which are met from the Fund.

Inflation and withdrawals may affect the value of your payout in the future.

The Fund aims to increase the value of your investment over a typical market cycle of 5-7 years. The Fund will obtain at least 70% exposure to investments with sustainable characteristics. All of the Fund's holdings will adhere to Fidelity's Sustainable Family exclusion policy. The Fund provides global exposure to a diversified range of assets by investing into funds managed by Fidelity which invest in a mixture of asset classes (including equities and bonds).

What could affect my return positively?

When the unit price of the Fund increases, so will the overall value of your investment.

What could affect my return negatively?

When the unit price of the Fund decreases, the value of your investment will fall.

Payouts in severely adverse market conditions

There is no limit to how low investments could fall. The Fund will actively allocate to, and within, different asset classes and geographies based on their potential to generate growth or reduce risk or volatility within the overall portfolio. On death the Society will pay the ISA policy value plus 1% at the date of death.

If there is any contradiction between the commentary here and that contained in the policy conditions and the Principles and Practices of Financial Management (PPFM), then the policy conditions and PPFM will always apply.

What happens if Sheffield Mutual Friendly Society is unable to pay out?

We are covered by the Financial Services Compensation Scheme (FSCS) who you can write to at PO Box 300, Mitcheldean, GL17 1DY. Telephone 0800 678 1100. Further information is available on their website – www.fscs.org.uk or by clicking on the "FSCS protected" link on our website footer.

This product is categorised as a long-term insurance policy and under the above compensation scheme eligible claims may be covered for up to 100% should Sheffield Mutual Friendly Society default. The investments underlying this product are managed on behalf of Sheffield Mutual Friendly Society by professional investment managers, and they use nominees and custodians, in respect of investments purchased and held. The investment managers and their counterparts are not covered by the compensation scheme but were they to default, and this in turn caused Sheffield Mutual Friendly Society to default, then you would still be covered by the FSCS because your contract is with Sheffield Mutual Friendly Society. The FSCS does not cover losses arising purely from investment performance.

What are the costs?

Table 1: Cost over time

The Reduction in Yield (RIY) shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off, ongoing and incidental costs.

The amounts shown here are the cumulative costs of the product itself, for three different holding periods. They include potential early exit penalties. The figures are estimates and may change in the future.

The figures shown include all the costs of the product itself but may not include all the costs that you pay to your adviser. The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs and show you the impact that all costs will have on your investment over time.

Non-advised sale letter

I confirm that I have read and understood this agreement and acknowledge that all decisions in relation to this investment will be and have been made by me, and that the Society has only provided me with factual information in relation to the product. I acknowledge that I have not received advice and/or a personal recommendation from Sheffield Mutual or its introducers.

I understand that as this is a non-advised sale, Sheffield Mutual takes no responsibility for the suitability of the product and that I will lose some of the regulatory protection which I may otherwise have. Specifically, I understand that it is unlikely that I would be able to make a complaint against the Society should the product(s) prove to be unsuitable for me.

Before we can provide the product to you we will establish that your decision to open this policy seems a satisfactory way forward for you. If we believe that not to be the case, we may refuse to provide the product. We will establish this by way of a short two part questionnaire which you agree to complete on application. This is not a suitability test and by agreeing to open the policy based on your answers, **Sheffield Mutual is not confirming that the policy is suitable for you.** (Words in the singular shall include the plural for joint policyholders).

To be signed by the policyholder or by the proposer if the policyholder is under 16. Joint applicants must both sign.
